Range and Club News

Howdy Shooters!

Wow, the first shoot of the year was the best weather I believe we have ever had! Quite a few of our fellow shooters were made famous as the characters in this month's scenarios. Denny Reb was stealing horses from the livery while Sheriff James Dahlman was out with a posse chasing Whitey and his gang. I even heard the fort was over run because the new officer, Captain Jim Midnight, was drinking and chasing dance hall girls with his buddy Uncle Fuzzy! All worked out and the seventy plus shooters were once again able to save Hill City from the onslaught.

The May shoot will be a busy one. Once again this year, we will be having our annual flea market so bring all those pants your better half shrank washing them in the creek and any thing else you would like to peddle. Make sure you put a tag on them so anyone interested knows who to haggle with. We are also going to have two "styles" of shooting at the May shoot.

You will have to pick from Traditional or Young Guns at sign up. Our Traditional will be targets just like we have been shooting the last few years. Young guns will be some of the crazy stuff we did years ago. I hear from the board members writing the scenarios there will be lots of props, movement, and tougher shooting sequences all on the clock! Either way, I'm sure both styles of shooting will be a hoot!

Lastly, we only have three more stages left for the Land Run program. This is where you sponsor a stage for the year and fix it up to your liking (with board approval). The sponsor will have a brass plate added to the stage for your hard work. Some of the seven already sponsored have talked to the board and on their way of getting started. We have lots of material on hand and have a pretty nice kitty to order what ever you may need.

And remember.....

Timing has a lot to do with the outcome of a rain dance!
