Howdy Pards!

Our 18th Annual Midwest shoot is now in the books. All seemed to enjoy reminiscing about the scenarios dating back all the way to 1996! We got to do laundry, save a buddy being hung by a mob, and even knock a stubborn piano player in the noggin. The side matches were not only the old favorites of Long Range Rifle and Cowboy Clays, but we spiced it up a little this year with a brand new Texas Star. The Team Match was a fast and furious blaze of 4 shooters sending lots of pistol and rifle rounds at a 4X4 to cut it in half. I'm pretty sure all that participated will be doing a little reloading before the September shoot. Spenerdy bought brand new 4X4's for the competition and they were tough!! It was great to see a shoot go so well with NO match or stage DQ's. We even had 14 shoot the whole match clean which is quite a feat shooting two days and ten different scenerios. The 14 will have their names put in a hat at the September shoot and one lucky cowboy or cowgirl will get a free 2018 Annual shoot!!

The board would like to thank all that helped make this shoot another success. There are lots of pards that help set targets, keep the range mowed, fix all the stuff we break, sponsor stages, cook us a great meal, work as stage drivers and donate their talents as needed. As always, it is hard to mention by name all that helped, but please give yourself a huge "Spirit of the Game" pat on the back. I have already thanked the Scouts that worked as brassers and they are all ready to come back next year! I'm surprised after they picked up the brass at the Team Match, it was quite a pile for each of 8 teams.

And always remember, don't squat with your spurs on!!
