

What's New?

September 5th, 2018

Howdy Pards and Pardettes!

Yep! Yep! Yep! We managed to squeeze in another annual shoot between the monsoon rain storms this summer! Congrats and a great big thanks to all the board members, stage drivers, wranglers, and especially our shooters! Scores are UP! We had a few upsets! Fun stages too!

Young Guns 2018

The September shoot is our annual "Young Guns" shoot. For those of you of the elder persuasion, this is where we write TWO versions of every stage. One for normal, high quality NTR shooting that you've come to know and love...and YOUNG GUNS...where we throw in a few "extra" challenges for those shooters who want a little more challenge in their normal shooting routine! Last year was our first young guns and it was a blast! Further details when you register at the shoot.

Does Wild Bunch have fans out there?

So we had two stages of wild bunch during the side match at the annual shoot. The shooters seemed to have a good time and I heard lots of compliments and a few shooters asking why we don't have a regular WB match. SO....to all the members out there...this is your club. Who wants Wild Bunch? Would you be interested if we held a four to six stage WB match on the Saturday prior to our normal Sunday shoot a few times per year? I'm trying to get an idea how many would come. Time is too precious if the shooters just aren't there. Give me a shout if you are interested. Give me a BIGGER shout if you want to help run those shoots.

Range News

We really appreciate all the patronage from our shooters this year. It's helped a lot to have the money to upgrade and repair fences and stages. I'm also very appreciative of our range help. We can't do it without our range wranglers and shooter support. That's all that keeps us going!

With all the rain, I'm really scared to go over and look at the range. There's probably tigers and elephants living over there by now...and maybe a few crocodiles! Last month killed a couple of good weedeaters before we got the jungle tamed a bit. But we are hoping this monsoon season will blow itself out by the time our shoot rolls around! After all, God LOVES Cowboys and Cowgirls!!

Your Pard,

Surly Bob
Marshal, Nebraska Territorial Rangers
