

# What's New?

January 3, 2021

Howdy Pard and Pardettes,  
Wishing excellent health for you and your's for the new year! Hope it's a happy one!

We really appreciate the work to the range as we closed down last season. Looking forward to our new season starting up on April 25 if everything goes according to plan. I'll be updating the website schedule for the new year.

## Banquet:

After much thought, the entire board of directors decided we would have to cancel the banquet plans this year. The resurgence of COVID has the cities on lock down and we just felt that it would not be fun and that we may not expect a lot of participation. The banquet is a very costly affair to put on each year and with depressed earnings due to COVID this last year, we couldn't justify the expense. We did schedule for January 2022 hoping life will get back to normal at some point.

Rifle Raffle: As you may be aware, we are raffling off a nice '73 straight grip in .357. We had planned to draw for the rifle at the January banquet but since that idea got blown out of the water, we will draw for the rifle at the first shoot of 2021, whatever month that happens to be, hopefully April!!! You do not have to be present to win if you marked your ticket's appropriately. \$10 per ticket or 3 for \$25. We also have on display a great print of a Saloon scene with all your favorite western movie stars in character! It is a fun conversation piece and we may end up raffling that off next year or saving it for the next banquet.

## Membership:

Membership materials will be sent out. Please send your membership dues back in to Frilly Knickers at your first opportunity. Our membership dues keep the doors open at NTR and are very important to the range.

## RANGE NEWS

I'm so proud of the work we got done on the range last year! So many things got rebuilt, better than before. You'd think in this time of COVID that things would slide but Spenerdy and crew have keep the high standards of NTR going! If for nothing else than to have a peaceful place to come and have fellowship with your friends. If you want to lend a hand, please contact Spenerdy for work days/times this year. Everyone is welcome and you can even use the range after the work is done.

Much Obliged to those of you who help keep our range groomed, open, and who keep and support our second amendment freedoms. You are the true Patriots!

Your Pard,

Surly Bob  
Marshal, Nebraska Territorial Rangers
