Howdy Pards,

Last weekend was the “Dress up in your best Duds” Banquet and Annual meeting. The food at Anthony’s was good as always and the large group kept the bartenders hopping. Range Widow did a little shopping ahead of the banquet and with the donations that evening, we had lots of awesome items on the live auction and general raffle. Thanks to all who donated. We were able to add a little under $2000.00 to the gold bags in the safe. The board was very pleased as we have lots of projects next year at the range, one being the old Victoria house. It has been burned to the ground and the footings are poured for a new “Grand” hotel in its place.

A few other “new” things for next year were announced. In May, we are having a “Young Guns” category added to the traditional stage presentations. It will include lots of movement, more difficult target sequences, and lots of props. Don’t worry, if you’re not interested in keeping up with them young lads, we will still have our traditional six stages as always. The board also talked about a new program called “Land Run”, it gave shooters a chance to take care of a stage themselves (with assistance of course) for the whole shooting season. Each of the stage sponsors will have a plaque with their name on the stage! We have six of the ten already sponsored, so if you are interested, give any of the officers a call for the particulars.

Well, winter should be over soon, so get them guns all cleaned and ready, all your ammo loaded, and your clothes pressed shooting season is just around the corner!

And remember……………

Never kick a fresh cow chip on a hot day!!!!!
